Details

Patch Cord LC UPC to LC UPC Simplex

The Patch Cord LC UPC to LC UPC is designed for high-performance fiber optic connectivity in telecommunications, data centers, and network environments. It features LC connectors with UPC polish for low insertion loss and high return loss, ensuring stable and efficient signal transmission. Available in multiple lengths, this patch cord provides flexibility for various installations. With LSZH or PVC jacket options, it ensures durability, safety, and long-term reliability for both indoor and outdoor applications.

Technical Specifications

Feature	Description
Product Name	Patch Cord LC UPC to LC UPC Simplex
Connector Type	LC (Lucent Connector)
Polish Type	UPC (Ultra Physical Contact)
Fiber Type	Single-mode or Multi-mode (Variant Based)
Cable Diameter	2.0 mm / 3.0 mm
Jacket Material	LSZH or PVC

Key Features	High-quality UPC connectors for low insertion loss and high return loss Precise alignment and stable performance Available in multiple lengths Durable and fire-safe jacket options
Applications	Telecommunications Data Centers LAN / WAN Networks FTTH / FTTB Deployments
Compliance	IEC / TIA / EIA / Telcordia Standards RoHS Compliant
