Battery Of OTDR DT Series

Battery Of OTDR DT Series

Variants

DT Series

Details

OTDR Battery for DT Series (D-TECH Mini OTDR)

The **OTDR Battery for DT Series** is a high-performance rechargeable battery designed specifically for **D-TECH Mini OTDR devices**. It ensures reliable power backup for field testing, helping technicians perform accurate fiber optic measurements without interruption.

Key Features

- Reliable power supply for Mini OTDR testing
- Compact and lightweight design
- Stable voltage output for accurate measurement performance
- Long-lasting backup for field operations
- Easy replacement and installation

Technical Specifications

Specification	Details
Battery Type	Rechargeable Lithium Battery
Voltage	3.7V
Capacity	4Ah (Approx. 14.8Wh)
Compatibility	D-TECH Mini OTDR (DT Series)

Application	Fiber optic testing, OTDR field work

Note: Always use original batteries for your OTDR to ensure safety, longer life, and accurate testing results.
