Details

Charger Adapter for VIAVI OTDR MTS-Series

The **VIAVI MTS-400 Charger Adapter** is a reliable power supply designed for the VIAVI MTS-400 Optical Time Domain Reflectometer (OTDR). It provides stable power output for charging the internal battery and powering the OTDR during fiber optic testing, maintenance, and troubleshooting operations.

Built for professional field technicians and network engineers, this adapter ensures safe and continuous operation of the VIAVI MTS-400 OTDR in FTTH, ISP, telecom, enterprise, and data center environments.

Category	Specification
Product Name	Charger Adapter for VIAVI OTDR
Compatible Model	VIAVI MTS-4000 or 6000
Product Type	AC/DC Power Adapter
Application	OTDR Battery Charging & Device Power Supply
Input Voltage	100V – 240V AC, 50/60Hz
Output Voltage	Compatible with VIAVI MTS-400 Requirements
Power Supply Type	External AC/DC Adapter

Category	Specification
Protection Features	Over Voltage, Over Current, Short Circuit Protection
Build Quality	Durable Industrial Design
Usage Environment	Indoor & Field Operations
Applications	Fiber Optic Testing, FTTH Networks, ISP Maintenance, Telecom N
Warranty	3 Months

Note: Please verify the output voltage, current rating, and connector type of your VIAVI MTS-400 OTDR before purchasing to ensure full compatibility.
