

Battery of INNO View 6C

Battery of INNO View 6C

Variants

View 6C

Details

Product Specification:

?The INNO View 6C Fusion Splicer utilizes a 4200 mAh lithium-ion battery, designed to support approximately 170 splicing and heating cycles on a full charge.?

Battery Specifications:

- Type: Lithium-Ion (Li-ion)
- Capacity: 4200 mAh
- Voltage: Typically 11.1V
- Performance: Up to 170 splicing and heating cycles per full charge?

This battery is specifically engineered for the INNO View 6C model, ensuring optimal performance and reliability during fiber optic splicing

tasks.
