Details

Clip Wire 1.2mm (Bending Wire)

The **1.2mm Clip Wire (Bending Wire)** is designed for flexible binding, cable management, support fixing, and general industrial or networking applications. It offers good flexibility, stable holding strength, and long-lasting performance.

General Specifications

Parameter	Specification
Product Name	Clip Wire 1.2mm (Bending Wire)
Diameter	1.2mm
Material	Galvanized Steel / Stainless Steel
Coating	PVC Coated
Flexibility	High (Easy bending and shaping)
Strength	Moderate tensile strength with stable holding

Additional Specifications

Parameter	Details
Length	100M per Roll
Wire Diameter (Outer)	1.2mm
Color	Black
