Optical fiber Cleaner Wiping Clip

Variants

A-07 Big

Details

Fiber Optic Cleaning

The **Fiber Optic Cleaning Kit** is a compact and professional cleaning solution designed for fiber optic technicians, ISP engineers, FTTH installers, and data center maintenance teams. It helps maintain clean fiber connectors and reduces signal loss caused by dust, oil, and contamination.

This lightweight cleaning kit includes an optical fiber wiping clip, anti-leakage alcohol bottle, replacement cotton sheets, and protective carton packaging, making it ideal for field work and daily fiber maintenance.

Package Contents

Item	Description
Optical Fiber Wiping Clip	Professional fiber cleaning clip for connector cleaning
Alcohol Bottle	Anti-leakage alcohol cleaning bottle
Replacement Cotton Sheets	10 pcs included
Packaging	Protective carton packaging

Technical Specifications

Category	Specification
Product Type	Fiber Optic Cleaning Kit
Packaging Size	Approx. 10.7 × 10 × 4.3 cm
Package Weight	Approx. 60 g
Application	Fiber optic connector cleaning and maintenance
Use Environment	FTTH, ISP, Data Center, Telecom, Fiber Installation

Note: Proper fiber cleaning helps reduce insertion loss, improves signal quality, and protects fiber optic connectors from long-term contamination damage.
