

IK-W5+(300Mbps Wireless In-Wall Access Point)

IK-W5+(300Mbps Wireless In-Wall Access Point)

Details

Product Details:

Model? IK-W5+

Wireless Standards: IEEE802.11b/g/n

Interface: 2*10/100 Base-TX port

User Capacity: 20+

Frequency: 2.4GHz

Dimension: 86x86x35mm

Power Supply: 48V POE

Transmit Power: 19dBm

Cover Radius: 25m

Function IK-W5+:

Adopt the 86-type wall-mount junction box design;

Compliant with PoE 802.3af;

Support WPA-PSK?WPA2-PSK?WPA-PSK+WPA2-PSK;

Support one-key online upgrading;

Support SSID Vlan, divide Vlan for SSID;

Support Chinese and English SSID, SSID independent setting and hiding;

Support wireless roaming, experience a better network on the move;

Support independent setting of signal strength and channel;

Support intelligent AC unified management, easy management and maintenance;

Support custom AP start time period and scheduled restarts
