Details

The **INNO Fusion Splicer Touch Screen** is a genuine replacement display assembly designed for INNO fusion splicer machines. It restores clear visibility, accurate touch response, and reliable operation for fiber optic splicing work in FTTH, ISP, telecom, and data center applications.

At **D-TECH**, we supply original fusion splicer spare parts for INNO and many other leading brands. Our inventory includes LCD touch screens, electrodes, heaters, batteries, adapters, fiber holders, wind protectors, motors, V-grooves, and other critical replacement parts.
