5V A

Details

Adapter for Media Converter – Reliable Power Supply

Product Description

This adapter is designed to provide stable and efficient power supply to fiber optic media converters. It ensures smooth operation, protects connected devices, and enhances the longevity of networking equipment.

Key Features

Parameter	Details
Input Voltage	100 – 240V AC (International Compatible)
Output Voltage	5V or 12V DC (depending on model)
Power Rating	Compatible with standard media converters
Connector Type	Barrel Plug (standard DC connector)
Protection	Short-circuit, Over-voltage, Over-current protection
Design	Compact, lightweight, and easy to install

Applications

Usage Area	Power supply for fiber optic media converters in offices, ISPs, data centers, and telecom networks
