Longitudinal Buffer Tube Slitter

Longitudinal Buffer Tube Slitter

Variants

4mm-11mm 1.5mm 3.3mm 0

Details

Rotary Cable Stripper

Buffer Tube Slitter is especially designed for stripping the outer jacket of a patch cord or a pigtail. It can slit loose tubes of Ø1.5mm ~ 3.3mm longitudinally. It has 4 rails on the body. Each rail is for the tube of specified diameter so that the stripping precision can be improved.

Features:

Compact design, light weight, portable

4 guide rails for tubes with different diameters

Composed with high quality metal blades, more durable

High precision rail design, ensures fiber integrity

Dimension (mm)	52 × 38 × 22
Weight (kg)	0.03
Body Material	Stainless Steel
Stripping Cycles	2 × 1000 cycles

Guide Rail Diameter (mm)

?1.5 ~ 1.9	?2.0 ~ 2.4	?2.5 ~ 2.9	?3.0 ~ 3.3
