---

Audio Video TV-Out Cable

### Variants

1.5M

### Details

## 1-In 3-Out Audio Video TV-Out Cable

Enhance your multimedia setup with the 1-In 3-Out Audio Video TV-Out Cable, designed to split a single AV signal into three outputs without compromising quality. Perfect for connecting multiple displays or devices to a single AV source, this cable ensures clear and stable audio-video transmission.

### Key Features

| Feature | Description |
|---|---|
| Input / Output | 1 Input, 3 Outputs (AV Signal Splitter) |
| Signal Quality | Clear, stable, and noise-free audio-video transmission |
| Compatibility | TVs, DVD players, gaming consoles, projectors, AV devices |
| Cable Design | Durable, flexible cable with shielding for interference protection |
| Installation | Plug & Play (No external power or software required) |

### Applications

| Usage Area | Details |
| --- | --- |
| Home Entertainment | Connect multiple TVs or displays from one AV source |
| Multimedia Setup | Ideal for AV distribution in homes and offices |
| Professional Use | Conference rooms, display systems, AV installations |

Get your 1-In 3-Out Audio Video TV-Out Cable today from D-TECH for seamless multi-device connectivity.
