Advantages

No.	Description
1	Soft rubber cushions impact during accidental drops.
2	Multi-color design provides multiple appearance options.
3	Aluminum alloy body with sandblasting and anti-rust treatment ensures corrosion resistance and long life.
4	Four-column support structure provides high impact resistance and stable performance with easy adjustment.
5	Shaft diameter upgraded from 3mm to 4mm, improving strength significantly.
6	Patented ball groove mechanism enables automatic reset after impact.
7	High-elastic rubber and 3-in-1 fixture prevent fiber breakage.
8	Oil, alcohol, and abrasion-resistant pressure pads ensure long-term stability.
9	High-precision stainless steel slides ensure smooth cutting.
10	Automatic return design improves cutting efficiency.
