

Wi-Fi 5/6 Wireless Outdoor AP

Wi-Fi 5/6 Wireless Outdoor AP

Variants

WI-AP317 WI-AP316AX WI-AP315

Details

Wi-Fi 5 / Wi-Fi 6 Outdoor Access Point (WI-AP315 | WI-AP317 | WI-AP316AX)

The Wi-Fi 5/6 Outdoor Access Point is a high-performance wireless solution designed for reliable connectivity in outdoor environments. Built with weatherproof IP-rated housing, it delivers long-range coverage, high-speed wireless performance, and stable connectivity for multiple users in demanding environments such as campuses, hotels, factories, and public areas.

Applications

| |
|---------------------------------------|
| Campus & School Wi-Fi Coverage |
| Hotels & Resorts Outdoor Coverage |
| Industrial & Factory Networks |
| Public Wi-Fi (Parks, Streets, Events) |
| Multi-building Wireless Connectivity |

Key Features

| |
|---|
| Ultra-fast wireless speed with Wi-Fi 5 / Wi-Fi 6 technology |
|---|

| |
|--|
| High-performance hardware design (WI-AP316AX) |
| 2.5G SFP slot with external omni antennas (WI-AP316AX) |
| Professional outdoor weatherproof IP-rated enclosure |
| Flexible power options (PoE / DC) |
| Fast roaming for seamless connectivity |
| Cloud-based management and monitoring |
| Supports high-density user environments |

Model Overview

| Model | Wi-Fi Standard | Key Highlight |
|------------|----------------|---|
| WI-AP315 | Wi-Fi 5 | Reliable outdoor coverage |
| WI-AP317 | Wi-Fi 5 | Enhanced performance |
| WI-AP316AX | Wi-Fi 6 | High-speed + 2.5G SFP + external antennas |

Package Contents

| WI-AP315 / WI-AP317 | WI-AP316AX |
|--|---|
| AP x1 Metal strap x1 Waterproof joint x2 Quick installation guide x1 Ethernet cable x1 | AP x1 Metal strap x1 Bracket x1 Rubber screws x2 Screw x1 Quick installation guide x1 Ethernet cable x1 |

Note: Choose the appropriate model based on coverage area, user density, and performance requirements. WI-AP316AX is recommended for high-density and high-speed deployments.
