

4K HDMI Splitter

4K HDMI Splitter

Variants

DT-7144A(MS) 1x4

Details

4K HDMI Splitter

Product Overview

The 4K HDMI Splitter is a high-performance device designed to distribute one HDMI input signal to multiple HDMI displays simultaneously without loss of video or audio quality. It supports Ultra HD 4K resolution for sharp visuals and synchronized output across all connected screens.

It is ideal for showrooms, conference rooms, classrooms, CCTV monitoring, digital signage, hotels, and home entertainment systems.
