## Details

# Skycom Fusion Splicer Charger Adapter (15V 5A)

The **Skycom Fusion Splicer Charger Adapter** is a reliable AC/DC power supply designed for Skycom fusion splicer machines. It provides stable voltage and current output for battery charging and continuous operation of the fusion splicer during fiber optic installation, maintenance, and repair work.

Built for professional fiber optic technicians, this charger ensures safe power delivery, stable performance, and dependable operation in both field and laboratory environments.

Category	Specification
<b>Product Name</b>	Skycom Fusion Splicer Charger Adapter
<b>Brand</b>	Skycom
<b>Product Type</b>	AC/DC Power Adapter
<b>Output Voltage</b>	15V DC
<b>Output Current</b>	5A
<b>Output Power</b>	75W

Category	Specification
<b>Input Voltage</b>	100V – 240V AC, 50/60Hz
<b>Application</b>	Fusion Splicer Battery Charging & Device Power Supply
<b>Protection Features</b>	Over Voltage, Over Current & Short Circuit Protection
<b>Usage Environment</b>	Indoor & Field Operations
<b>Compatibility</b>	Compatible with Skycom Fusion Splicer Machines Using 15V 5A In
<b>Applications</b>	FTTH Networks, ISP Maintenance, Telecom Projects, Fiber Optic I

**Note:** Please verify the DC connector size and charging requirements of your Skycom fusion splicer model before purchasing to ensure proper compatibility.
