

Fiberglass duct rodder

Fiberglass duct rodder

Variants

11MM 300m with wheels 4MM 300M W/O WHEELS 11MM 200m with wheels

Details

Technical Date of Fiberglass Duct Rodder:

Specification	Rod Diameter (mm)	4.5mm,6mm,8mm,9mm,10mm,11mm,12mm ,13mm, 14mm,16mm
	Rod Length (m)	10m,50m,100m,150m,200m,250m,300m,350m.....
	Frame Spec. (mm)	1300x450x1330,1200x420x1220,980x350x1000,680x240x700,420x180x400
Material:	Fiber glass rod inner,	Extruded by fiber glass and high strength resin at high temperature
	Fiber glass rod outer	High Density polyethylene coating
	Metal Frame	Steel with high-temperature sprayed plastic or hot dip
Physical Property	Fiber glass content	75-80%
	Density	> 1.9gr/cm ³

Working environment	-40 to +80
Minimum Pulling	4000N +/-5%
Consistency of rod	137gr/m
Flexural Modulus	> 46.500Mpa
Elongation at break	2.5-3%
Min Bending Radius	388mm
