Drop Cable Stripper

Product Overview

The Drop Cable Stripper is a compact and durable tool designed for precise stripping of fiber optic drop cables. It is widely used in FTTH installations and fiber cable preparation, ensuring clean stripping without damaging the fiber.

Specifications

Category	Specification
Product Type	Drop Cable / Fiber Stripper Tool
Application	Fiber Cable Stripping, FTTH Installation, Cable Preparation
Grade	Industrial
Material	Steel + ABS + PVC
Handle Material	Soft Grip Plastic
Design	Compact & Rugged
Function	Multi-purpose Cable Stripping
Stripping Range	2 – 5 mm Cable Jacket

Buffer Stripping	250 µm coating from 125 µm fiber
Precision	Factory pre-set (no adjustment required)
Fiber Protection	No scratch or nick on fiber
Blade Design	V-opening precision blade
Ergonomics	Comfortable anti-slip handle
Lock Mechanism	Tool locking for safe storage
Portability	Lightweight & easy to carry
