Details

Face Plate / Wallplate APC – Premium Fiber Optic Wall Outlet

The **Face Plate / Wallplate APC** is a premium-quality fiber optic wall outlet designed for secure, clean, and professional fiber optic cable termination. It supports **APC (Angled Physical Contact)** connectors for low insertion loss and minimal back reflection, making it ideal for FTTH, telecom, enterprise, and data center applications.

Its compact and elegant design allows easy installation in residential homes, offices, schools, hotels, telecom rooms, and structured cabling systems while maintaining a neat and professional appearance.

Key Features

Supports APC fiber optic connectors for low back reflection
Professional and clean wall-mounted fiber solution
Compatible with SC, LC, ST and MPO connectors depending on model
Available in 1-port, 2-port, 4-port and multiple configurations
Durable plastic or metal body for long-term use

Easy installation with flush or surface mounting options
Ideal for FTTH, enterprise, telecom and data center applications
Provides organized and secure fiber cable management

Technical Specifications

Parameter	Specification
Product Type	Fiber Optic Face Plate / Wallplate APC
Connector Type	APC (Angled Physical Contact)
Supported Connectors	SC / LC / ST / MPO (Model Dependent)
Port Options	1 Port / 2 Port / 4 Port / Multiple Ports
Material	High-Strength Plastic / Metal
Mounting Type	Flush Mount / Surface Mount
Surface Finish	Glossy / Matte Finish
Color Options	White / Black / Custom Color
Standards	TIA/EIA-568-B Compliant

Applications

FTTH (Fiber To The Home) Installations
Residential Fiber Networks
Enterprise & Office Networks
Telecom Distribution Systems

Data Centers & Server Rooms
Broadband & ISP Fiber Deployment

Benefits

Improves signal integrity and minimizes back reflection
Maintains clean and organized fiber cable installation
Provides easy access for maintenance and troubleshooting
Supports high-speed broadband and enterprise applications
Long-lasting and durable construction
Professional appearance for home and commercial installations

Note: APC face plates are recommended for high-speed fiber optic networks where low return loss and stable optical performance are important.
