Product Description:

One-Click Fiber Optic Cleaner: SC & LC Models

The One-Click Cleaner series is the industry standard for ensuring fiber optic networks run at peak performance. By removing microscopic contaminants with a single push, these tools prevent signal loss and permanent equipment damage.

Key Specifications

Feature	SC Cleaner	LC Cleaner
Connector Types	SC, ST, FC, E2000	LC, MU
Ferrule Size	2.5mm	1.25mm

Feature	SC Cleaner	LC Cleaner
Cleaning Capacity	800+ Cleans	800+ Cleans
Mechanism	Dry Cloth (No Solvents)	Dry Cloth (No Solvents)

Why These Are Essential

Precision Performance: Uses a specialized micro-fiber tape that traps dust, oil, and debris without scratching the delicate ferrule end-face.

Dual-Purpose Cleaning: The "Extendable Tip" design allows you to clean both **exposed jumpers** and connectors tucked away inside **bulkhead adapters**.

Foolproof Operation: The audible "click" tells the technician the cleaning is complete and the tape has automatically advanced to a fresh section.

Anti-Static Design: Prevents the buildup of static electricity that can attract new dust immediately after cleaning.

FEATURES :

Ergonomic, comfortable design with single action cleaning

Precise mechanical action delivers consistent cleaning results

Automatically advance ensures each clean is performed with fresh cleaning tape

Low cost per clean

Integrated guide-cap for quick cleaning (PRO)

APPLICATIONS :

Cleans connectors on jumpers and in adapters

Effective on a variety of connector styles

A must-have for field technicians
