Details

Electrode of Sumitomo in Nepal:

An electrode is used in an optical splicer machine to join two fiber optic glasses from one end to another.

We are providing all the spare parts for the optical Splicer machine in Nepal.

We have all the electrodes for all the brands, like those below.

1. Comway Fusion Splicer Machines: C6, C8S, and C10S
2. Fujikura Fusion Splicer Machines: 22S, 38S, 48S, 60S, 50S, 80S, 62C+
3. Sumitomo Fusion Splicer Machines: Z1C, Z2C, and 82C
4. INNO Fusion Splicer Machine: View 6C
5. Tumtec Fusion Splicer Machines: 18S, 18H, 83A, V9+
