Details

Product Description

This item is listed as the **Charger of Fujikura Series**, intended to be used as a **power charger/adapter for Fujikura fusion splicer units**. It's offered as an accessory under the optical fusion splicer parts category.

However, based on typical Fujikura charger/adapter specs (from accessory listings like Fujikura DCC-14), these chargers are usually designed to **provide the correct DC output voltage and current required by Fujikura fusion splicers**.
