Details

CAT6 Cable Pure Copper 305m (Outdoor)

The CAT6 Outdoor Cable (305m) is designed for high-speed and reliable outdoor networking. Built with **pure copper conductors** and a **UV-resistant jacket**, it ensures stable performance in harsh environmental conditions.

Product Specifications

Category	Specification
Product Name	CAT6 Cable Pure Copper 305m (Outdoor)
Cable Type	Ethernet Cable (Twisted Pair)
Category	CAT6
Conductor Material	Pure Copper
Length	305 meters (Bulk Roll)
Jacket Material	UV-Stabilized HDPE / LSZH
Bandwidth	Up to 250 MHz
Network Speed	Supports Gigabit Ethernet (10/100/1000 Mbps)

Key Features

Pure Copper Core	Ensures low signal loss and high transmission quality
Outdoor Jacket	UV-resistant and weatherproof for long outdoor life
High-Speed Performance	Supports stable Gigabit data transmission
Bulk Roll	305m length for flexible installation
Durability	Resistant to sunlight, moisture, and temperature changes

Applications

Outdoor networking between buildings

CCTV and surveillance systems

Wireless access point connectivity

Direct burial installations

Industrial and campus networks
