Details

Product Overview:

A cost-effective solution that provides high-speed 10 Gigabit performance with Laser-Optimized Multimode Fiber (LOMMF). This high-quality Multimode fiber optic patch cable is designed for ethernet applications. Each connection has great durability and is resistant to pulls, strains and impacts during installation.

Our cables are 100% optically inspected and tested for insertion loss before you receive them. A pull-proof jacket design surrounds the Multimode, OM3, 50/125, 10 GB fiber, which is immune to electrical interference.

Multimode Fiber Optic Patch Cable Features & Specifications:

100% Optically inspected and tested for insertion loss

Backward compatibility with existing 50/125 equipment

Provides the performance headroom required to support LED, VCSEL laser light sources and 10 Gigabit ethernet applications

Pull-Proof Jacket

Immune to electrical interference

ROHS Compliant

Patchcord LC UPC to LC UPC Multimode MM 3 mm (3mm)

Patchcord LC UPC to LC UPC Multimode MM 5 mm (3mm)

Insertion 0.3dB Return Loss > 50dB

Fiber Code: 62.5/ 125um
